**Part II.**
**SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:**

*The examiner telephoned applicant's attorney in order to discuss claims 5,24 and 25 of the instant application. The examiner questioned whether the adhesiveness of facing layer increased or decreased from the center to the periphery. With respect to claim 24, the examiner indicated that the recitation "wherein opposed segments of the border portion have greater skin adherence than the remaining areas of the border portion" is not necessarily so. With respect to claim 25, the examiner indicated that the addition of the "hydrophobic silicone based material" did not make the claim allowable, and should have been rejected with prior art in the previous action. Applicant's attorney agreed to cancel claims 5 and 24-27.*

**Part III.**

It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.  
 It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
